SEAFORD

Sonny's Fishing Station, 3640 Ocean Avenue, 516-785-8058

WANTAGH

Causeway Bait & Tackle, 3031 Merrick Road, 516-785-3223
Jones Beach Bait & Tackle, Jones Beach State Park, 595 Bay Parkway, Field #10, 516-785-2248

SHELLFISHING

For NYS DEC Shellfish Closure Maps or Temporary Emergency Shellfish Closures, please visit <https://hempsteadny.gov/335/Shellfish-Harvesting> where Town of Hempstead residents (with proof of six-month residency) can also fill out an application for a non-commercial shellfish permit. Or call the Department of Conservation and Waterways at 516-431-9200 (weekdays), or the Bay Constables at 516-897-4100, 516-801-5608 or 516-801-5609 (weekends).

Clam and mussel permits are \$10 annually (January 1 - December 31) for children and adults to 59 years old. For clam permits, there is no fee for Senior Citizens age 60 and over, and the permit is valid for five years. For mussel permits, there is a \$2 annual fee for Senior Citizens age 60 and over.

Town of Hempstead, Dept. of Conservation and Waterways,
1401 Lido Boulevard, Point Lookout, NY 11569

NYS FISHING LICENSE REQUIREMENTS

All anglers, 16 years of age and older, fishing in the marine and coastal district waters must enroll in NYS's no-fee Recreational Marine Fishing Registry in one of the following ways:

- in person at the Hempstead Town Clerk's Office 516-812-3513
(fresh water: \$25 fee, seniors, \$5; salt water: no fee)
- online through NYS DEC's automated licensing system (DECALS)
<http://www.dec.ny.gov/permits/6091.html>
- by telephone: 1-86-NY-DECALS (1-866-933-2257)

Anglers will receive a NYS license card which must be carried while angling.

Numbers in the following section refer to the map on the next page

PIER & SURF FISHING

SPECIES	MINIMUM SIZE ¹	DAILY LIMIT	SEASON
American Lobster ⁹ Recreational permit required	3 ³ / ₈ " minimum carapace length; 5 ¹ / ₄ " maximum carapace length	6	Check website dec.ny.gov/outdoor/7894.html for "Lobster Management Areas" and seasons

SHARK SPECIES		MINIMUM SIZE	DAILY LIMIT
Allowed Sharks	Tiger, Blacktip, Bull, Lemon, Nurse, Spinner, Blue, Oceanic whitetip, Porbeagle, Common thresher	54" fork length ¹¹	One shark per vessel per trip, except that one additional Atlantic Sharpnose and one additional Bonnethead may be taken and possessed per angler per trip.
	Shortfin mako	71" male; 83" female fork length ¹¹	
	Great hammerhead, Scalloped hammerhead, Smooth hammerhead	78" fork length ¹¹	
	Atlantic sharpnose, Bonnethead, Finetooth, Blacknose	No size limit	
	Smooth dogfish, Spiny dogfish	No size limit	Any number
Prohibited Sharks	Atlantic angel, Basking, Blacknose, Bigeye sand tiger, Bigeye sixgill, Bigeye thresher, Bignose, Bluntnose sixgill, Caribbean sharpnose, Dusky, Galapagos, Longfin mako, Narrowtooth, Night, Reef, Sand tiger, Sandbar, Sharpnose sevengill, Smalltail, Whale, White	Take or possession prohibited ¹²	Take or possession prohibited ¹²

All landed sharks must have head, tails and fins attached. No sale allowed. No finning. Sharks, excluding spiny dogfish, shall not be taken for commercial or recreational purposes by baited hooking except with the use of non-stainless steel non-offset circle hooks. No person shall conduct, sponsor or participate in any shark tournament unless said tournament's rules and regulations require the exclusive use of non-stainless steel, non-offset circle hooks.

¹ Total length is the longest straight line measurement from the tip of the snout, with the mouth closed, to the longest lobe of the tail, with the lobes squeezed together, and the fish laid flat on the measuring device.

² Non-offset (inline) circle hooks must be used when recreationally fishing for striped bass using bait defined as any live or dead, whole or part of a marine or aquatic organism or terrestrial invertebrate. Exemption: Circle hooks are not required when fishing with an artificial lure, whether or not they are tipped with bait as previously defined.

³ Summer flounder may not have heads or tails removed or be otherwise cleaned, cut, filleted, or skinned until brought to shore, with the following exception: the white side fillet or white skin only of a legal size fluke may be removed to use as bait. The carcass of the fluke with dark side completely intact must be retained for inspection of size limit and counts against the possession limit.

⁴ Black sea bass are measured from the tip of the snout (or jaw), with the mouth closed, to the farthest extremity of the tail, not including the tail filament.

⁵ A party/charter boat customer who lands and possesses more than 50 scup during September 1 - October 31 must obtain a dated origin fare receipt from the licensed vessel.

⁶ The fillet length is the longest straight line measurement from end to end of any fleshy side portion of the fish cut lengthwise away from the backbone, which must have the skin intact, laid flat on the measuring device.

⁷ Dressed length is the longest straight line measurement from the most anterior portion of the fish, with the head removed, to the longest lobe of the caudal fin (tail), with the caudal fin intact and with the lobes squeezed together, laid flat on the measuring device.

⁸ Anadromous river herring is defined in 6 NYCRR Part 10 (except the Hudson River and its tributaries and embayments north of the George Washington Bridge at river mile 11).

⁹ Lobsters and crabs in spawn (eggs visible thereon) may not be taken or possessed.

¹⁰ Peeler/shredder is when the crab is about to molt or shed its hard outer shell. At this stage, the crab has a fully formed soft shell beneath the hard outer shell. The impending shedding process is evident by the white coloration along the outer rim of the paddle-like appendages on the crab's fifth pair of legs.

¹¹ Fork length means the straight-line measurement of a fish from the tip of the snout to the fork of the tail. The measurement is not made along the curve of the body.

¹² "Take" is defined in Environmental Conservation Law 11-0103(13) to include "pursuing, shooting, hunting, killing, capturing, trapping, snaring and netting fish, wildlife, games, shellfish, crustacea and protected insects and all lesser acts such as disturbing, harrying or worrying, or placing, setting, drawing or using any net or other device commonly used to take any such animal." Pursuing or "targeting" a prohibited shark species refers to an angler making an effort to catch that species in violation of 6 NYCRR 40.7(c)(1).

Other provisions: Terrapin Excluder Devices (TEDs) must be used on all non-collapsible crab pots or traps that are fished in creeks, coves, rivers, tributaries and near-shore harbors of the Marine and Coastal District. TEDs shall be securely fastened inside each funnel entrance of the crab pot to effectively reduce the size of the funnel opening to no larger than 4³/₄" x 1³/₄". An interactive map (leaves DEC's website) is available for reference.
